

HADIA AKBAR

Computer Science Undergraduate

hadiaa624@gmail.com | 0334 7235755 | Lahore, Pakistan | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate specializing in Java, JavaFX, Machine Learning, NLP, UI/UX Design, and Web Development, with a proven track record of turning complex problems into real-world AI and software solutions. As an AI/ML intern with the TEYZIX CORE Program and Neurofive, delivered NLP-driven resume screening, document summarization, and legal-document risk analysis systems that translated research into production-ready tools. Brings hands-on frontend expertise from FlexiBerry, a live marketplace platform built for a real-world client, alongside strong skills in database-driven application development and user-centered interface design in Figma. A fast learner and collaborative problem-solver eager to apply a growing technical toolkit to high-impact engineering challenges.

EXPERIENCE

AI/ML Intern — TEYZIX CORE Program

AI/ML Intern — Neurofive

EDUCATION

Bachelor of Computer Science — COMSATS University Islamabad, Lahore Campus

2024 – Present

TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++, SQL

Web Development: HTML, CSS, JavaScript, jQuery, TypeScript, Tailwind, Bootstrap, React, Next.js, Node.js, Express.js

Frameworks & Tools: JavaFX, Figma, GitHub, Streamlit

Database Management: MySQL, MongoDB, Supabase

Machine Learning & AI: ML Fundamentals, NLP (spaCy, NLTK), Deep Learning, Sentence-Transformers, LLMs, Data Preprocessing, EDA

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Database Systems, Software Debugging & Testing

PROJECTS

Resume Spark

- Built Resume Spark, a full-stack AI resume feedback application using React, Node.js, tRPC, Drizzle, and an LLM API. Implemented structured JSON analysis, job-description matching, persistent feedback history, and one-click resume bullet rewrites with a responsive Scandinavian-inspired UI.

AI-Powered Resume Screening & Candidate Ranking System

- Automated resume parsing and job-description analysis, matching candidates to roles via semantic embeddings and a weighted ranking model; served through a Streamlit dashboard and REST API.

AI-Powered Document Summarization System

- Streamlit app that condenses lengthy text/PDF documents into extractive summaries (Simple Frequency, TF-IDF) with word-frequency and keyword analytics.

AI-Powered Contract & Legal Document Risk Analyzer

- Production-oriented AI system for clause extraction, risk detection, summarization, and semantic search over legal documents, with report generation and an insights dashboard.

FlexiBerry – Marketplace Platform

- Contributed frontend development and interface design for a real-world marketplace platform, building responsive, user-friendly pages.

FactGuard – Fake News Detector

- Developed an ML/NLP application to classify fake news articles, handling data preprocessing and text classification.

E-Commerce Smart Inventory System

- Built a JavaFX inventory management system with dashboards for product management, order handling, expiry tracking, alerts, and billing, backed by MySQL.

Airline Reservation System

- Developed an Airline Reservation System that enables users to search flights, book and cancel tickets, and manage passenger information, while providing administrators with flight and booking management features.

ATM Machine (JavaFX)

- Built a GUI-based ATM application using Java and JavaFX, featuring secure user authentication, balance inquiry, cash withdrawal, deposit, PIN change, and transaction history.

UI/UX Design Projects (Figma)

- Designed modern UI prototypes with attention to layouts, color schemes, wireframes, and interface improvements for academic and personal projects.

SOFT SKILLS

Communication | Teamwork & Collaboration | Problem-Solving | Quick Learning | Time Management | Creativity

LANGUAGES

English | Urdu | Punjabi

INTERESTS

UI/UX Design | Web Development | Machine Learning | Cybersecurity | Exploring New Technologies | Creative Design
